

Cerebral Palsy Foundation Early Detection and Intervention

Hammersmith Infant Neurological Examination (HINE) Clinical Workshop

2 DATES: Monday May 4, 2026 or Monday June 8, 2026 7:45 am - 12:00 pm

Trainer / Presenter:

Angie Zimmerman, MA, OTR/L, BCP, IBCLC, AOMT-C

Location:

**UNM Center for Development and Disability
2300 Menaul Blvd. NE
Albuquerque, NM 87107**

Training is offered at no cost

Sign-in at 7:45. Training starts at 8:00 am.

The Hammersmith Infant Neurological Examination (HINE) is a standardized neurological exam for infants adjusted age 2 to 24 months. The HINE evaluates cranial nerve function, movements, reflexes and reactions, posture, and tone and can help clinicians identify movement disorders including those at risk for cerebral palsy.
